EPDM Elastomer

EPDM Elastomer is a compound specially formulated by DiaCom Corporation that has been certified to NSF/ANSI Standard 6. This material is a peroxide-cured EPDM that is compounded with FDA Grade ingredients. *EC-6505 is specifically intended for applications where the diaphragm is in contact with potable water or various other food service applications*.

Features & Benefits:

- NSF/ANSI/CAN 61-2022
- NSF/ANSI/CAN 372-2022
- Chloramine Resistant
- Moderate Durometer

Typical Physical Properties:

Material Type: Ethylene Propylene Diene

Chemical Designation: EPDM

Durometer (Shore A): 65

Specific Gravity: 1.19

Tensile Strength (psi): 1,800

100% Modulus: 574

Elongation (%): 550

Diaphragm Design & Manufacturing Leader

DiaCom Corporation, an ISO 9001 and AS9100 certified company, is a recognized leader in the design, manufacture and application of innovative, high performance molded diaphragm seals. DiaCom serves a variety of markets worldwide including industrial, automotive, aerospace, food processing, water controls, medical instrumentation, appliances and others. DiaCom offers state-of-the-art diaphragms designed for cost effectiveness, ease of installation, durability, and high performance characteristics.
