

DIACOM CORPORATION INSTALLS NEW 800-TON PRESS COMPLETING PHASE I EXPANSION

Amherst, NH - March 2023

As part of our planned Phase I expansion, Diacom Corporation is pleased to announce the purchase and installation of a new 800-ton press with 48" platens. The new press will help Diacom further serve our customers in nuclear, water control, and oil and gas industries by manufacturing larger size diaphragms. This install completes our Phase I expansion.

Several new vacuum and double-coat presses are slated for DiaCom's upcoming 2023 Phase II expansion to further meet growing demand and will be installed soon.

Diacom recently completed construction of a new white room in Plant 2 dedicated to the manufacturing of silicone medical diaphragms as part of our 2022 expansion. DiaCom is excited to be part of this growing industry!

DiaCom Corporation is pleased to be experiencing unprecedented growth at this time and is stepping up to meet that demand.
